

The Life Change *Map*

Your 3-Day Blueprint to Feel Like Yourself Again, Understand Your Signals,
and Change Your Direction

Annie Chitate, RN · Everyday Nurse

Joel Polley, RN · The BP Guy

THIS WORKBOOK BELONGS TO

WELCOME

You do not have to fix your whole life in three days.

You do need to stop guessing.

FROM ANNIE

I have sat with a lot of women who said the same sentence to me. "I do not feel like myself anymore." They said it quietly, almost like a confession. It is not a confession. It is information, and it deserves a real answer.

FROM JOEL

I spent twenty years in intensive care and emergency rooms. Almost nobody arrives there overnight. Their body had been talking for years. Nobody ever taught them how to listen to it, or what to do first.

Over the next three days you will answer four questions:

What do I want back?

What has my body been telling me?

What is waiting already costing me?

What support would help me actually follow through?

By the end you will have your own Life Change Map. Not twenty goals. Not another pile of health tips. One clear direction.

Your life does not change when you know everything. It changes when you finally know what to do next.

BEFORE YOU BEGIN

How to Use This Workbook

Fill in the pages as Annie and Joel walk you through them.

Do not write the perfect answer. Write the true answer.

Bring your workbook back each night. Every page feeds the final map.

Be honest. You are not being graded and no one else reads this.

Circle, check, or underline anything that lands.

If a page does not apply to you, skip it. Nothing here is required.

THE ONE THING THAT CANNOT BE MADE UP LATER

Starting tonight, fill in one page of the Life Change Log at the back of this book. Pages 35, 36 and 37. Three days, one page each.

Tonight · page 35

Wednesday · page 36

Thursday · page 37

That log becomes the single page you can carry to your next appointment. It is the only part of this workbook that has to happen in real time, because three days of your own information cannot be remembered backward on Thursday night.

Your only job this week: notice the pattern, name the priority, choose the next move.

Important Health Information

This challenge is general health education. It is not medical advice, and it does not diagnose, treat, or replace care from a qualified healthcare professional.

Annie and Joel are registered nurses. They are not your prescribing clinicians, and nothing in this workbook is written for your specific history, kidneys, or prescriptions.

SPECIFICALLY

Do not stop, reduce, or change any medication because of this workbook or anything said on a livestream. Talk to the person who prescribed it.

Talk with an appropriate healthcare professional about your own symptoms, test results, medications, supplements, and treatment decisions.

Record only the measurements that apply to you. If you do not own a blood pressure cuff, leave that line blank. It is not required.

Do not put your full name, date of birth, address, or medical record number in a public comment or chat.

If a symptom may be an emergency, stop and seek urgent medical care. Do not wait for a class.

Everything here is meant to work alongside your doctor, never instead of your doctor. If anything we teach seems to contradict your doctor, your doctor wins.

THE PLAN

How the Life Change Map Works

Each day gives you one piece of your map. On the last night you put the pieces together on one page.

**BY THURSDAY NIGHT YOUR MAP WILL SHOW**

- | | |
|------------------------------------|---------------------------------|
| 1 What I want back | 6 My first domino |
| 2 My three loudest signals | 7 My highest-return move |
| 3 What I have been avoiding | 8 What has kept me stuck |
| 4 What this is costing me | 9 The support I need |
| 5 My greatest drain | 10 My next decision |

This is not a list of everything wrong with you. It is a map showing you where change can begin.

BEFORE WE START

My Starting Point

Score each area from 1 to 10. Go fast. Your first instinct is usually the honest one. You will score these again on Thursday.

1 draining me ————— strong and supported 10

Energy

Clarity and focus

Sleep

Understanding my health

Mood and peace

Trust in my body

Confidence

Time for myself

Desire and connection

Hope for my future

MY THREE LOWEST AREAS

FINISH THIS SENTENCE

I am still getting everything done, but underneath it I feel

WHAT WORRIES ME MOST ABOUT CONTINUING THIS WAY

BEFORE WE START

What I Have Already Tried

This page matters more than it looks. Read your own answers when you finish it.

I HAVE TRIED

- | | |
|---|---|
| ☐ Diet plans | ☐ Books or videos |
| ☐ Exercise plans | ☐ Medication |
| ☐ Supplements | ☐ Starting over on a Monday |
| ☐ Herbs or teas | ☐ Ignoring it and hoping it improves |
| ☐ Fasting | ☐ Cutting things out |
| ☐ Advice from social media | ☐ Other |

WHAT WORKED, EVEN FOR A LITTLE WHILE

WHAT DID NOT LAST

WHERE I USUALLY LOSE MOMENTUM

- | | |
|--|--|
| ☐ I got overwhelmed | ☐ I got conflicting advice |
| ☐ I did not know what came first | ☐ Life got busy |
| ☐ The plan did not fit my real life | ☐ I was trying to change too much at once |
| ☐ I did not see results fast enough | ☐ I was never sure I was doing it right |
| ☐ I had no one holding me to it | |

THE HELP THAT MIGHT HAVE KEPT ME GOING

You may not have failed the plan. The plan may have failed to fit your actual life.

DAY 1

Bring Sexy Back

What do I want back?

Sexy here is not only about sex. It stands for everything that makes you feel like a living person instead of a functioning one:

Energy

Confidence

Joy

Desire

Peace

Connection

Feeling attractive

Feeling feminine

Feeling alive

Recognizing yourself in the mirror

BEFORE

The woman I used to be is gone.

AFTER

She may not be gone. She may be buried under exhaustion, stress, symptoms, and years of putting herself last.

*Wanting to feel alive inside your own body is not vanity.
It is a health concern.*

TONIGHT'S QUESTION

What part of myself am I ready to reclaim?

DAY 1 • EXERCISE 1

The "Where Did I Go?" Inventory

I FIRST KNEW SOMETHING HAD CHANGED WHEN

I STARTED NOTICING IT AROUND

WHAT WAS HAPPENING IN MY LIFE AT THAT TIME

- | | |
|--|---|
| ☐ Pregnancy or after a baby | ☐ Illness or surgery |
| ☐ Perimenopause or menopause | ☐ Sleep fell apart |
| ☐ Grief or loss | ☐ Weight changes |
| ☐ Stress in my marriage or relationship | ☐ Money pressure |
| ☐ Pressure at work | ☐ A move or a big change |
| ☐ Caring for a parent or family member | ☐ Other |

I MISS THE WOMAN WHO

SOMETHING I STOPPED DOING BECAUSE I DID NOT FEEL LIKE MYSELF

You are not asking to be twenty again. You are asking to be present in your own life again.

DAY 1 • EXERCISE 2

My Three Loudest Signals

A signal can be a symptom, a feeling, a measurement, or a pattern that keeps repeating. Write the three loudest ones. Not all of them. The three that are hardest to ignore.

	MY SIGNAL	WHEN IT GETS WORSE	HOW IT AFFECTS MY LIFE
1			
2			
3			

THESE SIGNALS SEEM TO GET LOUDER WHEN

- ☐ I sleep badly
- ☐ I am under stress
- ☐ I skip meals
- ☐ I eat certain foods
- ☐ I stop moving
- ☐ I feel overwhelmed
- ☐ My routine changes
- ☐ I am taking care of everyone else
- ☐ Around a certain time of the month
- ☐ Other

THE PATTERN I HAD NOT NOTICED BEFORE TONIGHT

The goal is not to chase every symptom. The goal is to see the pattern underneath them.

DAY 1 • EXERCISE 3

The Real Cost of Not Feeling Like Myself

This page is uncomfortable on purpose. It is also the page most women say they needed.

BECAUSE I DO NOT FEEL LIKE MYSELF, I HAVE

- | | |
|---|--|
| ☐ Turned down invitations | ☐ Hidden how I actually feel |
| ☐ Avoided being in pictures | ☐ Stopped wearing clothes I like |
| ☐ Pulled away from intimacy | ☐ Been short with people I love |
| ☐ Felt less confident at work | ☐ Lost interest in things I used to enjoy |
| ☐ Cancelled plans at the last minute | ☐ Worried quietly about my future |

THE PART OF THIS THAT HURTS MOST IS

WHAT I QUIETLY FEAR WILL HAPPEN IF NOTHING CHANGES

WHAT THIS HAS MADE ME BELIEVE ABOUT MYSELF

IS THAT BELIEF COMPLETELY TRUE? ☐ Yes ☐ No ☐ I am not sure anymore

A KINDER AND MORE ACCURATE BELIEF COULD BE

DAY 1 • HOPE

My Day 1 Possibility

For this page only, assume you had a clear plan and real support. Write from there.

SIX MONTHS FROM NOW, I WOULD LOVE TO

I WOULD FEEL MORE LIKE MYSELF IF I COULD

THE PEOPLE I LOVE WOULD PROBABLY NOTICE

ONE EARLY SIGN THAT CHANGE HAD ALREADY STARTED WOULD BE

You did not fail fourteen times. You started fourteen times without a map. Starting was never your problem.

DAY 1 • WITH JOEL

Tonight's First Reading

Before you go to bed tonight, take one blood pressure reading. Not to judge it. Just to start the record. We will not talk about what any number means until tomorrow.

If you do not own a cuff, skip the box and fill in the rest of your log at the back instead. Nothing here requires you to buy anything.

HOW TO TAKE A READING YOU CAN ACTUALLY TRUST

- Sit quietly for five minutes first. No talking, no phone, no rushing in from the car.
- Feet flat on the floor. Legs uncrossed. Back supported.
- Bare arm resting on a table so the cuff sits level with your heart.
- Empty your bladder first. A full one can move the number.
- Use the same arm and roughly the same time of day for all three days.
- Take two readings one minute apart and write both down.

TONIGHT	READING 1	READING 2	ARM USED	TIME

Write it down. Do not decide what it means. That is tomorrow night's job.

DAY 1 • DECISION

My Day 1 Decision

THE FIRST PART OF MYSELF I WANT BACK IS

WHY THIS MATTERS TO ME NOW

ONE SMALL THING I CAN DO THIS WEEK

THE PART THAT WOULD BE HARD TO DO ALONE

FINISH THIS SENTENCE

I am not shallow for wanting _____

I am allowed to want more than survival. I am allowed to feel alive inside my own life.

SIGNATURE

DATE

TOMORROW NIGHT

You know what you want back. Tomorrow we find out what your body has been trying to tell you about what got in the way.

DAY 2

Take Charge of Your Future

What is my body telling me?

A number is not your identity. A symptom is not a moral failure. Information is simply what lets you make a wiser decision.

BEFORE

My numbers prove that I have failed.

AFTER

My numbers are information. They can help me protect my future.

The number is not attacking you. It is trying to inform you.

TONIGHT'S QUESTION

What information have I been avoiding, missing, or misunderstanding?

DAY 2 • WITH JOEL

One Connected Story

These five do not stand in a line. They stand in a circle, and each one pulls on the next. That is why treating one at a time has never held for you.

CIRCLE THE TWO YOU FEEL THE MOST

Then draw a line from each one to a signal you wrote on page 11.

WHAT THAT LINE SHOWS ME

This does not mean every symptom has one cause. It means these things talk to each other, and reading them together tells you more than reading any one of them alone.

DAY 2 • EXERCISE 1

My Numbers and Signals Map

Only write down what you already know. Do not guess, and do not go looking anything up tonight. Blank lines here are useful information too. They become your questions on page 22.

SIGNAL OR NUMBER	WHAT I KNOW	WHEN IT WAS CHECKED
Blood pressure		
Blood sugar or A1C		
Cholesterol		
Weight or waist pattern		
Sleep pattern		
Other		

SYMPTOMS OR CHANGES I HAVE NOTICED

HEALTH CONCERNS THAT RUN IN MY FAMILY

MEDICINES OR CARE INSTRUCTIONS I WANT TO UNDERSTAND BETTER

A number can guide a decision. It should never become your identity.

DAY 2 • EXERCISE 2

What I Know and What I Do Not Know

WHAT I UNDERSTAND CLEARLY

WHAT STILL CONFUSES ME

ADVICE I HAVE HEARD THAT SEEMS TO CONTRADICT ITSELF

WHAT I HAVE BEEN TRYING TO FIGURE OUT ON MY OWN

Information is useful. Information in the right order is what actually changes anything.

DAY 2 • EXERCISE 3

What I Have Been Avoiding

I HAVE BEEN PUTTING OFF

- | | |
|---|--|
| ☐ Checking a number | ☐ Asking a hard question |
| ☐ Making an appointment | ☐ Admitting something has changed |
| ☐ Looking at a result | ☐ Following a plan consistently |
| ☐ Going back for follow-up | ☐ Other |
| ☐ Bringing up a symptom | |

AND I THINK IT IS BECAUSE

- | | |
|---|--|
| ☐ I am afraid of the answer | ☐ I do not understand the information |
| ☐ I do not want to be judged | ☐ I would not know what to do next |
| ☐ I feel overwhelmed | ☐ I am tired of trying |
| ☐ I do not think I will be heard | ☐ Other |

AVOIDING IT HAS GIVEN ME A BREAK FROM

BUT AVOIDING IT MAY BE COSTING ME

Avoiding the information does not protect your future. Understanding it gives you more options, and options are the whole point.

DAY 2 • WITH JOEL

Stress, Sugar, Sodium

Three corners. One change at each. Nothing to buy, nothing exotic, and everything available at an ordinary grocery store.

CORNER	MY ONE CHANGE FOR THE NEXT THREE DAYS	WHY I PICKED IT
Stress		
Sugar		
Sodium		

Write these three in your log at the back for the next two days. On Thursday they become the second column of the page you can hand to your doctor: what you changed, and why.

DAY 2 • EXERCISE 4

My Questions and My Next Right Move

QUESTIONS WORTH ASKING A HEALTHCARE PROFESSIONAL

Start from these, then write your own. You will copy the best ones onto the Doctor Conversation Sheet on page 38.

What patterns do you see in my symptoms or my results?

What would you like me to track between now and my next visit?

What do these results mean in plain language?

What options should I understand?

What symptoms would mean I need to be seen right away?

How will we know whether the plan is working?

MY OWN QUESTIONS

MY NEXT RIGHT MOVE

- | | |
|--|--|
| ☐ Track a signal | ☐ Follow the care plan I already have |
| ☐ Schedule an appointment | ☐ Ask for a clearer explanation |
| ☐ Review a result | ☐ Complete testing that was recommended |
| ☐ Prepare my questions | ☐ Other |

I WILL DO IT BY _____

DAY 2 • DECISION

My Day 2 Decision

THE SIGNAL I WILL STOP IGNORING

THE INFORMATION I NEED

WHAT HAS KEPT ME FROM FOLLOWING THROUGH BEFORE

WHAT COULD HELP ME FOLLOW THROUGH THIS TIME

- | | |
|---|--|
| ☐ A simple plan | ☐ Help understanding my options |
| ☐ Someone holding me to it | ☐ A group going through the same thing |
| ☐ Reminders | ☐ Someone to help me adjust when life happens |
| ☐ Personal guidance | |

My numbers can guide my decisions. They do not define who I am.

TOMORROW NIGHT

Knowing what needs attention is one thing. Deciding you are worth the time is another. Tomorrow we look at what waiting has already cost you.

DAY 3

Health Is Money

What is waiting already costing me?

Your health does not determine your worth. You are already worth it. What your health affects is your options: your energy, your work, your relationships, your time, and how much of your own life you get to enjoy.

BEFORE

Taking care of myself is another expense.

AFTER

Ignoring myself is already the expensive choice.

The cheapest decision today is not always the least expensive decision over time.

TONIGHT'S QUESTION

What am I losing while I wait for the perfect time to begin?

DAY 3 • EXERCISE 1

My Hidden Health Costs

Be specific. Not "energy." The nap you took instead of the walk you wanted. Not "money." The four bottles in the cabinet.

AREA	WHAT THIS IS COSTING ME RIGHT NOW
Time	
Energy	
Money	
Confidence	
Relationships	
Work or business	
Opportunities	
Peace of mind	
Independence	

THE COST I HAVE BEEN MINIMIZING

SOMETHING I KEEP POSTPONING UNTIL I FEEL BETTER

WHAT ANOTHER YEAR OF THIS PATTERN COULD COST ME

DAY 3 • EXERCISE 2

My Greatest Drain

THE ONE CONCERN CREATING THE BIGGEST RIPPLE IS

WHEN IT GETS WORSE, THESE ALSO SUFFER

- | | |
|--|-------------------------------------|
| ☐ Sleep | ☐ What I eat |
| ☐ Mood | ☐ Motivation |
| ☐ Work | ☐ Money |
| ☐ Relationships | ☐ Patience |
| ☐ Confidence | ☐ Other |

IF THIS ONE AREA IMPROVED, WHAT ELSE WOULD GET EASIER

WHY I HAVE NOT BEEN ABLE TO CHANGE IT CONSISTENTLY

- | | |
|---|---|
| ☐ I do not know where to begin | ☐ I get conflicting advice |
| ☐ I try to change too much at once | ☐ The plan does not fit my life |
| ☐ I lose momentum | ☐ I am not sure what is right for me |
| ☐ No one is holding me to it | ☐ I keep waiting to feel motivated |

You do not need to fix everything. You need to stop ignoring the one thing that is draining everything else.

DAY 3 • EXERCISE 3

My Highest-Return Move

A high-return move is one realistic action that improves several areas at once. It is usually boring, and it is usually something you already half know.

MY HIGHEST-RETURN MOVE MAY BE

THIS ONE MOVE WOULD SUPPORT MY

- | | |
|---|---|
| ☐ Energy | ☐ Relationships |
| ☐ Sleep | ☐ Work |
| ☐ Confidence | ☐ Peace |
| ☐ Understanding of my health | ☐ Future choices |

WHAT WOULD MAKE THIS REALISTIC IN MY ACTUAL WEEK

WHAT USUALLY MAKES ME STOP

THE SMALLEST VERSION OF THIS STEP, THE ONE I COULD DO ON A BAD DAY

You do not need a perfect plan. You need a plan strong enough to survive an ordinary week.

DAY 3 • EXERCISE 4

My Support Gap

This is the page most people skip and most people need. It is about the distance between what you know and what you have been able to do.

WHAT I ALREADY KNOW I SHOULD DO

WHAT I HAVE STRUGGLED TO DO CONSISTENTLY

THE DECISION I DO NOT FEEL CONFIDENT MAKING ALONE

THE KIND OF ACCOUNTABILITY THAT HAS WORKED FOR ME BEFORE

WHAT MAY HAPPEN IF I KEEP DOING THIS THE SAME WAY FOR ANOTHER YEAR

WHAT COULD BECOME POSSIBLE WITH A CLEAR PATH AND SUPPORT

FINISH THIS SENTENCE

I do not need more random information. I need _____

You may not need more willpower. You may need a clearer order, and someone who notices when you go quiet.

DAY 3 • DECISION

My Day 3 Decision

WHAT I AM NO LONGER WILLING TO KEEP PAYING FOR WITH MY HEALTH

THE FIRST AREA I WILL PRIORITIZE

MY NEXT MOVE

THE SUPPORT I NEED

THE DATE I BEGIN

*My health does not determine my worth. It affects my options,

What Comes Next

You have now named:

What you want back

What your body has been telling you

What you have been avoiding

What staying stuck is costing you

Your first priority

The gap between knowing and doing

That is more clarity than most women get in a year, and it is yours whether you ever spend another dollar with us or not.

WHICH ONE SOUNDS MOST LIKE YOU?

- ☐ I know exactly what to do and I am confident I can follow through on my own.
- ☐ I know some of what to do, but I need help putting it in the right order.
- ☐ I start strong and then fade. I need someone holding me to it.
- ☐ I feel overwhelmed and I need a plan that fits my real life.
- ☐ I want guidance from someone who understands the pattern I am in.

You have already done the hardest part. You stopped ignoring the pattern. The next part is turning what you found into a plan you can actually follow.

If you checked the first box, go run your map. It works either way, and we mean that. If you checked any of the others, that is not a weakness. It is the most accurate thing on this page.

Coaching is not handing your power to somebody else. It is having a guide help you use it in the right order, with someone who notices when you go quiet.

You can start that conversation at bpquiz.com/coaching. It is an application and a conversation, not a checkout. If it is not a fit we will tell you.
