NEW START

30-Day Challenge

One thing out. One thing in.
30 days.

The NEWSTART 30-Day Challenge

One thing out. One thing in. 30 days.

Welcome. You don't need to change everything. You need to change **two things** and keep them for 30 days. This guide walks you through the 8 NEWSTART principles, then helps you pick your one elimination and your one addition, and track them every day.

This guide is for education only and is not medical advice. Talk with your doctor before changing medicines or if you have a health condition. Never stop a prescribed medicine on your own.

What is NEWSTART?

NEWSTART is 8 simple, daily habits that support your whole body: blood pressure, blood sugar, energy, sleep and mood. None of them cost much. All of them add up.

N — Nutrition

Fill half your plate with vegetables and fruit. Build meals on beans, lentils, whole grains, nuts and seeds. Real food, mostly plants, close to how it grew.

Try: a big bowl of greens + beans at lunch. Hibiscus tea in the afternoon.

E — Exercise

Move every day. A 10-minute walk after meals helps your body handle sugar and supports healthy blood pressure.

Try: walk after dinner, every night, for 30 days.

W — Water

Most of us run dry. Aim for about half your body weight (lbs) in ounces, spread through the day.

Try: 16 oz of water first thing in the morning.

S — Sunlight

Morning light sets your body clock, lifts mood and helps sleep that night.

Try: 10 minutes outside before 10 a.m.

T — Temperance

Use good things wisely and skip the harmful ones. This is where your one elimination lives.

Try: drop soda, late-night snacking, fried food, or added sugar.

A — Air

Fresh air and slow, deep breathing calm the stress response.

Try: 5 slow belly breaths before each meal. Open a window at night.

R — Rest

7 to 9 hours a night, plus one day a week to truly unplug.

Try: screens off 1 hour before bed, same bedtime every night.

T — Trust

Faith, gratitude and people around you. Peace of mind is part of health.

Try: write 3 things you're thankful for each night. Show up in the group.

Why just two changes?

Big overhauls fall apart by week two. Small changes kept every day become who you are. Removing one thing makes room. Adding one thing builds momentum. After 30 days, both are habits, and you can stack the next two.

Workbook — Step 1: Pick your ONE elimination

Circle one, or write your own. Pick the one that would make the biggest difference for you.

- | | |
|--|--|
| ☐ Soda and sweet drinks | ☐ Added sugar / desserts |
| ☐ Fried and fast food | ☐ Eating after 7 p.m. |
| ☐ Salty packaged snacks | ☐ Alcohol |
| ☐ Screens in bed | ☐ White bread and refined flour |

My ONE elimination for 30 days:

Why this matters to me:

What I'll do instead when the urge hits:

Workbook — Step 2: Pick your ONE addition

Choose one NEWSTART habit to add every single day.

- | | |
|--|--|
| ☐ Walk 10 min after dinner | ☐ 16 oz water on waking |
| ☐ 10 min morning sunlight | ☐ A big salad every day |
| ☐ Beans or lentils once a day | ☐ Bed by 10 p.m. |
| ☐ 3 gratitudes each night | ☐ 5 slow breaths before meals |

My ONE addition for 30 days:

When and where I'll do it (e.g. "right after dinner, around the block"):

Who will hold me accountable (post it in the group!):

My commitment

For the next 30 days I will remove _____ and add _____.

If I miss a day, I start again the next morning. I never miss twice.

Signed: _____ Start date: _____

Step 3: Your 30-Day Tracker

Check each box every day. Rate your energy 1–5. Post your streak in the group each week.

Day	Elimination	Addition	Energy (1-5)	Notes
