WELCOME

You are probably here because she asked you to.

That is a fine reason. Stay anyway.

FROM JOEL

Twenty years in intensive care and emergency rooms, and I can tell you what almost every man said on the way in. He said he was fine. He had been saying it for years. His body had been saying something else the whole time, and nobody ever taught him how to read it.

I am not going to lecture you and I am not going to tell you to stop anything you were prescribed. I am going to show you how to read your own signals and how to walk into an appointment prepared instead of defensive.

FROM ANNIE

If your wife handed you this book, she was not nagging you. She was telling you she wants you around. Let that land, then turn the page.

Over the next three nights you answer four questions:

- **What do I want back?**
- **What has my body been telling me?**
- **What is waiting already costing me?**
- **What would actually help me follow through?**

By Thursday you will have your own Life Change Map. One page. One direction. Not a list of everything you are doing wrong.

Your life does not change when you know everything. It changes when you finally know what to do next.

How to Use This Workbook

- Fill in the pages as Joel and Annie walk through them.
- Nobody reads this but you. Not your wife, not us, unless you choose to share it.
- Do not write the right answer. Write the true one.
- You do not have to be on camera and you do not have to say a word.
- Bring it back each night. Every page feeds the final map.
- If a page does not apply to you, skip it.

THE ONE THING THAT CANNOT BE MADE UP LATER

Starting tonight, fill in one page of the Life Change Log at the back. Pages 35, 36 and 37. Three days, one page each.

That log becomes the single page you can hand to a doctor. It is the only part of this book that has to happen in real time, because three days of your own numbers cannot be reconstructed from memory on Thursday night.

Your only job this week: notice the pattern, name the priority, choose the next move.

Important Health Information

This challenge is general health education. It is not medical advice, and it does not diagnose, treat, or replace care from a qualified healthcare professional.

Joel and Annie are registered nurses. They are not your prescribing clinicians, and nothing here is written for your specific history, your kidneys, or your prescriptions.

SPECIFICALLY

- **Do not stop, reduce, or change any medication** because of this workbook or anything said on a livestream. Talk to the person who prescribed it.
- Talk with an appropriate healthcare professional about your own symptoms, results, medications, supplements and treatment decisions.
- Record only the measurements that apply to you. No cuff, leave it blank. Nothing here requires you to buy equipment.
- Do not put your full name, date of birth, address or medical record number in a public comment or chat.
- Chest pain, pressure, sudden weakness, trouble speaking, or a sudden severe headache are emergencies. Call 911. Do not wait for a class, and do not wait to see if it passes.

Everything here works alongside your doctor, never instead of your doctor. If anything we teach seems to contradict your doctor, your doctor wins.

How the Life Change Map Works

Each night gives you one piece. Thursday you put them together on one page.

NIGHT	THE QUESTION	WHAT IT GIVES YOU
Day 1	What do I want back?	Your destination
Day 2	What is my body telling me?	Your signals
Day 3	What is waiting costing me?	Your decision
The Map	What will I do next?	Your blueprint

BY THURSDAY NIGHT YOUR MAP WILL SHOW

1. What I want back
2. My three loudest signals
3. What I have been avoiding
4. What this is costing me
5. My greatest drain
6. My first domino
7. My highest-return move
8. What has kept me stuck
9. The support I need
10. My next decision

This is not a list of everything wrong with you. It is a map showing you where to start.

BEFORE WE START

My Starting Point

Score each one from 1 to 10. Go fast. First instinct is the honest one. You will score these again Thursday.

AREA	SCORE (1 = draining me · 10 = strong and supported)
Energy	
Sleep	
Mood and patience	
Confidence	
Drive and connection	
Focus and sharpness	
Understanding my health	
Strength and stamina	
Time for myself	
Hope for my future	

MY THREE LOWEST

FINISH THIS SENTENCE

I keep telling everyone I am fine, but the truth is

WHAT WORRIES ME MOST ABOUT CONTINUING THIS WAY

What I Have Already Tried

Read your own answers when you finish this page. That is the whole exercise.

I HAVE TRIED

- | | |
|---|--|
| ☐ Cutting back | ☐ Advice from a guy at work |
| ☐ A gym membership | ☐ Videos or podcasts |
| ☐ A diet | ☐ Medication |
| ☐ Supplements | ☐ Starting again on Monday |
| ☐ Working out like I did at 25 | ☐ Powering through it |
| ☐ Fasting | ☐ Other |

WHAT WORKED, EVEN FOR A WHILE

WHAT DID NOT LAST

WHERE I USUALLY QUIT

- | | |
|--|--|
| ☐ I got busy | ☐ I got hurt or sore |
| ☐ I did not know what mattered most | ☐ I went all in and burned out |
| ☐ It did not fit my schedule | ☐ I got conflicting advice |
| ☐ I did not see results fast enough | ☐ I was never sure I was doing it right |
| ☐ Nobody was holding me to it | |

WHAT MIGHT HAVE KEPT ME GOING

You did not fail the plan. You went at it alone, with no order of operations, and no one keeping score.

Bring Sexy Back

What do I want back?

Same title your wife has, and it is not really about sex for either of you. It stands for the whole list of things that quietly went missing:

- Energy that is still there at 7pm
- Drive, in every sense of the word
- Strength and wind
- A clear head
- Patience with the people you love
- Confidence with your shirt off
- Being the guy people lean on
- Sleeping through the night
- Wanting to do things again
- Recognizing yourself

BEFORE

This is just what getting older looks like.

AFTER

Some of it is age. A lot of it is signal, and signal can be answered.

Wanting to feel strong and awake in your own body is not vanity. It is maintenance, and you do it for everything else you own.

TONIGHT'S QUESTION

What did I used to be able to do that I quietly stopped doing?

The "When Did I Stop?" Inventory

I FIRST NOTICED SOMETHING HAD CHANGED WHEN

THAT WAS AROUND

WHAT WAS GOING ON IN MY LIFE THEN

- | | |
|---|--|
| ☐ A job change or layoff | ☐ Marriage stress |
| ☐ A promotion and longer hours | ☐ A move |
| ☐ A new baby or grandkid | ☐ Caring for a parent |
| ☐ Money pressure | ☐ Sleep fell apart |
| ☐ A death in the family | ☐ The weight came on |
| ☐ An injury or surgery | ☐ Other |

SOMETHING I USED TO DO AND JUST STOPPED

IF I AM HONEST, I STOPPED BECAUSE

You are not trying to be twenty-five again. You are trying to be all the way here for the next twenty years.

My Three Loudest Signals

A signal can be a symptom, a number, or a pattern that keeps repeating. Three. The loudest ones, not all of them.

MY SIGNAL	WHEN IT GETS WORSE	HOW IT AFFECTS MY LIFE
1.		
2.		
3.		

THESE GET LOUDER WHEN

- ☐ I sleep badly or snore
- ☐ Work is heavy
- ☐ I skip meals
- ☐ I eat certain things
- ☐ I stop moving
- ☐ I am stressed
- ☐ I travel
- ☐ I drink
- ☐ On a deadline
- ☐ Other

THE PATTERN I HAD NOT PUT TOGETHER BEFORE TONIGHT

The goal is not to chase every symptom. The goal is to see what is underneath them.

The Real Cost of "I Am Fine"

This page is uncomfortable. It is also the one most men say they needed. Nobody is reading it.

BECAUSE OF HOW I FEEL, I HAVE

- | | |
|--|---|
| ☐ Skipped things I was invited to | ☐ Come home and gone straight to the couch |
| ☐ Stopped taking my shirt off | ☐ Stopped playing with the grandkids the way I used to |
| ☐ Pulled back from my wife | ☐ Told everyone I am fine |
| ☐ Been short with my kids | ☐ Avoided the doctor |
| ☐ Let a hobby go | ☐ Worried about this at 2am and told nobody |

THE PART THAT BOTHERS ME MOST IS

WHAT I ACTUALLY WORRY WILL HAPPEN IF NOTHING CHANGES

WHAT I HAVE STARTED TO BELIEVE ABOUT MYSELF

IS THAT COMPLETELY TRUE?

- ☐ Yes ☐ No ☐ Not sure anymore

A MORE ACCURATE VERSION WOULD BE

My Day 1 Possibility

For this page, assume you had a clear plan and someone keeping you honest. Write from there.

SIX MONTHS FROM NOW, I WOULD LIKE TO BE ABLE TO

THE THING I WOULD DO AGAIN IF I HAD THE ENERGY

WHAT MY WIFE OR MY KIDS WOULD NOTICE FIRST

ONE EARLY SIGN IT WAS ALREADY WORKING

You have fixed harder things than this with less information. You just have never had the right order.

Tonight's First Reading

Before bed tonight, take one blood pressure reading. Not to judge it. To start the record. We do not talk about what any number means until tomorrow night.

No cuff, skip the box and fill in the rest of your log at the back. Nothing here requires you to buy anything.

HOW TO TAKE A READING YOU CAN ACTUALLY TRUST

- Sit still for five minutes first. No phone, no talking, and not straight in from the truck.
- Feet flat, legs uncrossed, back supported.
- Bare arm on a table so the cuff is level with your heart.
- Empty your bladder first. A full one moves the number.
- Same arm, same time of day, all three days.
- Take two readings a minute apart and write both down.

TONIGHT	READING 1	READING 2	ARM USED	TIME

Write it down. Do not decide what it means. That is tomorrow night.

My Day 1 Decision

THE FIRST THING I WANT BACK IS

WHY IT MATTERS NOW AND NOT LAST YEAR

ONE SMALL THING I CAN DO THIS WEEK

THE PART I WOULD PROBABLY DROP IF NOBODY KNEW

FINISH THIS SENTENCE

I am not being soft for wanting

Showing up for my own body is not weakness. It is the same thing I have done for everyone else for twenty years.

Signature

Date

TOMORROW NIGHT

You know what you want back. Tomorrow we look at what your body has been telling you about what got in the way.

Take Charge of Your Future

What is my body telling me?

A number is not a grade. A symptom is not a character flaw. Information is just what lets you make a better call, which is something you already do every day at work.

BEFORE

If I go in, they are going to find something.

AFTER

If there is something, I would rather find it while I still have options.

The number is not attacking you. It is reporting to you.

TONIGHT'S QUESTION

What information have I been avoiding, missing, or guessing at?

One Connected Story

These five do not stand in a line. They stand in a circle, and each one pulls the next. That is why fixing one at a time has never held.

CIRCLE THE TWO YOU FEEL THE MOST

Then draw a line from each to a signal you wrote on page 11.

WHAT THAT LINE SHOWS ME

This does not mean every symptom has one cause. It means these things talk to each other, and reading them together tells you more than any one of them alone.

My Numbers and Signals Map

Only what you already know. Do not guess and do not go look anything up tonight. Blank lines are useful information too. They become your questions on page 22.

SIGNAL OR NUMBER	WHAT I KNOW	WHEN IT WAS CHECKED
Blood pressure		
Blood sugar or A1C		
Cholesterol		
Weight or waist size		
Sleep, and whether I snore		
Other		

THE LAST TIME I HAD ANY OF THIS CHECKED

- ☐ In the last year
- ☐ One to three years ago
- ☐ More than three years ago
- ☐ I genuinely do not know
- ☐ I do not have a regular doctor

WHAT RUNS IN MY FAMILY, AND WHAT AGE IT HIT THEM

A number can guide a decision. It does not get to tell you who you are.

What I Know and What I Do Not Know

WHAT I UNDERSTAND CLEARLY

WHAT I HAVE BEEN GUESSING AT

ADVICE I HAVE HEARD THAT CONTRADICTS ITSELF

WHAT I HAVE BEEN TRYING TO FIGURE OUT ON MY OWN

Information is useful. Information in the right order is what actually changes anything.

What I Have Been Avoiding

I HAVE BEEN PUTTING OFF

- | | |
|---|---|
| ☐ Making an appointment | ☐ Bringing up a symptom |
| ☐ Finding a doctor at all | ☐ Filling or taking a prescription |
| ☐ Getting labs done | ☐ Telling my wife the truth about it |
| ☐ Looking at a result I already have | ☐ Other |
| ☐ Going back for follow-up | |

AND IF I AM HONEST, IT IS BECAUSE

- | | |
|---|---|
| ☐ I do not want to hear it | ☐ I do not want to be treated like a patient |
| ☐ I do not want to be lectured | ☐ I would not know what to do next |
| ☐ I do not have time | ☐ I am tired of trying |
| ☐ I do not want to be put on something | ☐ Other |

PUTTING IT OFF HAS SPARED ME FROM

BUT PUTTING IT OFF IS PROBABLY COSTING ME

Not knowing has never once made a thing smaller. It has only ever made it later.

Stress, Sugar, Sodium

Three corners. One change at each. Nothing to buy, nothing exotic, all of it at an ordinary grocery store.

CORNER	MY ONE CHANGE FOR THE NEXT THREE DAYS	WHY I PICKED IT
Stress		
Sugar		
Sodium		

Write these three in your log at the back for the next two days. Thursday they become the second column of the page you can hand to a doctor: what you changed, and why.

My Questions and My Next Right Move

QUESTIONS WORTH ASKING A HEALTHCARE PROFESSIONAL

Start here, then write your own. You will copy the best ones onto the Doctor Conversation Sheet on page 38.

- What patterns do you see in my symptoms or my results?
- What do you want me to track before I come back?
- What do these numbers mean in plain language?
- What are my options, including the ones that are not a prescription?
- What would mean I need to be seen right away?
- How will we know whether this is working?

MY OWN QUESTIONS

MY NEXT RIGHT MOVE

- | | |
|---|---|
| ☐ Track a signal | ☐ Review a result I already have |
| ☐ Find a doctor | ☐ Follow the plan I already have |
| ☐ Make the appointment | ☐ Ask for a clearer explanation |
| ☐ Get labs done | ☐ Other |

I WILL DO IT BY

My Day 2 Decision

THE SIGNAL I WILL STOP IGNORING

THE INFORMATION I NEED

WHAT HAS STOPPED ME FROM DOING THIS BEFORE

WHAT WOULD ACTUALLY GET ME TO FOLLOW THROUGH

- | | |
|--|--|
| ☐ A simple plan | ☐ Knowing what to do first |
| ☐ Someone keeping score | ☐ Other guys doing the same thing |
| ☐ A deadline | ☐ Someone to adjust it when work blows up |
| ☐ Straight answers | |

My numbers can guide my decisions. They do not get to define me.

TOMORROW NIGHT

Knowing what needs attention is one thing. Deciding it is worth your time is another. Tomorrow we add up what waiting has already cost.

Health Is Money

What is waiting already costing me?

Your health does not decide your worth. What it decides is your capacity: what you can earn, build, carry, show up for, and how long you get to keep doing it.

BEFORE

I cannot afford to deal with this right now.

AFTER

I have been paying for it for years. I just have not been counting it.

The cheapest decision today is almost never the least expensive one over ten years.

TONIGHT'S QUESTION

What is this already costing me, and who else is paying it?

My Hidden Health Costs

Be specific. Not "energy." The Saturday you slept through. Not "money." The equipment in the garage you have used twice.

AREA	WHAT THIS IS COSTING ME RIGHT NOW
Time	
Energy	
Money	
Confidence	
My marriage	
Work or business	
Opportunities I passed on	
Peace of mind	
Independence later	

THE COST I HAVE BEEN WAVING OFF

SOMETHING I KEEP PUTTING OFF UNTIL I FEEL BETTER

WHAT ANOTHER TEN YEARS OF THIS PATTERN COULD COST ME

My Greatest Drain

THE ONE THING CREATING THE BIGGEST RIPPLE IS

WHEN IT GETS WORSE, THESE GO WITH IT

- | | |
|--------------------------------------|-------------------------------------|
| ☐ Sleep | ☐ What I eat |
| ☐ Patience | ☐ Motivation |
| ☐ Work | ☐ Money |
| ☐ My marriage | ☐ Focus |
| ☐ Confidence | ☐ Other |

IF THAT ONE THING IMPROVED, WHAT ELSE GETS EASIER

WHY I HAVE NOT CHANGED IT ALREADY

- | | |
|---|---|
| ☐ I do not know where to start | ☐ I get conflicting advice |
| ☐ I go too hard and quit | ☐ It does not fit my schedule |
| ☐ Work comes first | ☐ I am not sure what is right for me |
| ☐ Nobody is keeping score | ☐ I keep waiting for a better week |

You do not need to fix everything. You need to stop ignoring the one thing that is draining everything else.

My Highest-Return Move

One realistic action that improves several things at once. It is usually boring, and it is usually something you already half know.

MY HIGHEST-RETURN MOVE IS PROBABLY

THAT ONE MOVE WOULD HELP MY

- | | |
|---|--|
| ☐ Energy | ☐ Marriage |
| ☐ Sleep | ☐ Work |
| ☐ Confidence | ☐ Patience |
| ☐ Understanding of my health | ☐ Options later |

WHAT WOULD MAKE THIS REALISTIC IN A REAL WORK WEEK

WHAT USUALLY MAKES ME QUIT

THE SMALLEST VERSION, THE ONE I COULD DO ON A BAD DAY

You do not need a perfect plan. You need one that survives a bad week, because there is always a bad week.

My Support Gap

Most men skip this page. It is the distance between what you already know and what you have actually done.

WHAT I ALREADY KNOW I SHOULD DO

WHAT I HAVE NOT BEEN ABLE TO DO CONSISTENTLY

THE CALL I DO NOT FEEL QUALIFIED TO MAKE ALONE

THE LAST TIME SOMETHING STUCK, WHAT WAS DIFFERENT

WHAT ANOTHER FIVE YEARS OF THE SAME APPROACH LOOKS LIKE

WHAT COULD BE POSSIBLE WITH A PLAN AND SOMEONE IN MY CORNER

FINISH THIS SENTENCE: I do not need more information. I need

No good fighter works his own corner. That is not weakness, it is how the sport is built.

My Day 3 Decision

WHAT I AM NO LONGER WILLING TO PAY FOR WITH MY HEALTH

THE FIRST THING I WILL DEAL WITH

MY NEXT MOVE

WHO I AM GOING TO TELL

THE DATE I START

My health does not decide my worth. It decides my options, and I intend to have some.

I do not have to change everything today, and I am done pretending nothing needs to change.

I know what I want back. I know what my body has been telling me. I know what waiting has been costing me, and who else has been paying for it.

I know my first move, and I am not too proud to let somebody help me make it.

What Comes Next

You have now put a name to:

- What you want back
- What your body has been telling you
- What you have been avoiding
- What waiting is costing you and your family
- Your first priority
- The gap between knowing and doing

That is more clarity than most men get in a decade, and it is yours whether you ever spend a dollar with us or not.

WHICH ONE IS ACTUALLY YOU?

- ☐ I know what to do and I will do it on my own.
- ☐ I know some of it, but I need to know what comes first.
- ☐ I start strong and fade. I need somebody keeping score.
- ☐ I need a plan that survives a real work week.
- ☐ I want straight answers from someone who has seen this before.

You have already done the hard part. You stopped calling it nothing.

If you checked the first box, go run your map. It works either way and we mean that.

If you checked any of the others, that is not weakness, it is the most accurate thing on this page. Nobody works their own corner. Coaching is not somebody taking over. It is somebody who knows the order, keeping score, so you stop starting from scratch every January.

Start that conversation at bpquiz.com/coaching. It is an application and a conversation, not a checkout. If it is not a fit we will say so.

Coaching is education, accountability and support. It is not medical treatment and it does not replace your doctor.

Joel and Annie teach and explain. They do not diagnose and they will not tell you to change a medication. Some questions belong with the person who knows your whole history, and they will say so when that is the honest answer.
